Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

FINAL OFFICIAL ACTION

Status of the Claims

Claims 1-6 are cancelled.

Claims 7 and 8 are allowed.

Claims 9 and 10 are rejected under 35 USC 1103.

Rejections under 35 USC §103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 9 and 10 are rejected under 35 U.S.C. 103(a) as being unpatentable over Mimms (United States Patent Publication US 2002/0176355 A1) in view of Bhaskaran (United States Patent 5,963,540).

As per claim 9, Mimms discloses:

having a the backup gateway periodically transmit a predetermined signal to the primary gateway apparatus to determine a state of the primary gateway (page 4, ¶45 and page 5, ¶52);

having the backup gateway assume a routing operation, normally performed by the primary gateway, between a peripheral device and an Internet service provider when backup gateway determines that a response to the predetermined signal has not been received from the primary gateway within a predetermined period of time (page 4, ¶45,50 and page 5, ¶53).

Mimms does not explicitly disclose:

returning control of the routing operation to the primary gateway when the response to the predetermined signal is received by the backup gateway after the backup gateway has assumed the routing operation. Bhaskaran discloses this at column 6, lines 28-32 and lines 43-48. Bhaskaran teaches the efficient reuse of the a recovered previously failed router when the device is able to respond timely to routing service requests. Thus it would have been obvious to one of ordinary skill in the art at the time of invention to incorporate the reuse of recovered devices as taught by Bhaskaran thereby creating system which allows recovered devices to re-incorporated into a protected network, thus becoming more hardware efficient.

As per claim 10, Mimms discloses:

wherein the predetermined signal comprises a Routing Information Protocol (page 4, ¶45).

Allowable Matter

Claims 7 and 8 are allowed, when viewed with each element in combination.

Information Disclosure

Applicant indicates that an supplemental 1449 has included with the Amendment. The Examiner is unable to locate this document. The Examiner has included the information on a PTO-892 to remedy this problem.

Final Disposition

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
